

BEYOND HOME - 5 Quality Questions

Make quality care a number one priority for your child outside the home! Refer to these Quality Questions when looking for an early childhood program to meet your family's needs.

Child Development

What's a typical day like for my child?

Indoor and outdoor activities and learning through play are essential to your child's development. Knowing what to expect at any age helps you monitor your child's development.

Health & Safety

How does your program protect my child from accidents, injury and illness?

Early childhood programs with established health and safety practices help protect the well-being of your child.

Experience & Education

What type of experience and education requirements are there for your teachers?

Teachers experienced in early childhood settings are familiar with child development and plan appropriate learning experiences for your child.

Family Engagement

What will the teacher share with me about my child?

The ongoing sharing of information between you and the teacher helps in providing activities that support your home environment and develop positive relationships.

Rating Level

What's your ABC Quality rating?

The ABC Quality program assesses and rates the quality of early childhood programs in South Carolina. Search the abcquality.org website to check the ratings of participating providers or connect with a rated provider near you.
